

Idea Creation Guide

Painting 2

Students, I hope you are all doing well.

At home with the art supplies, you have available to you, design a flower to go in the tunnel mural we will do later on in the year. We will be painting the tunnel near the botanical gardens that goes under Monroe. Brainstorm some ideas for what type of flower you would like to make and come up with at least seven different design ideas. When we get back to school you will pick your favorite design to turn into a painting. We will then make a stencil of it to go in the tunnel mural! If you have any questions feel free to email me at: lyone@ogdensd.org

Brain Storming Questions:

What is your favorite color?

What does that color say about your?

What is your favorite shape(square, circle, triangle, diamond, etc.)?

What is your favorite flower?

How do you want to your flowers to posture to look like standing tall, moving in the wind, etc.)?

Is there anything else you would like to include with your flower(bee, lady bug, butterfly, etc.)?

Flip the page for the thumbnail sketches ->

Thumbnail Sketches

Now test out some different compositions or layouts for your ideas. Complete all 7. Hint: the more ideas you generate the more choices you will have when we work on our painting when we come back to school.
